EXPERIÊNCIAS

# Prehistoric Brazil

Not only the high quality of the most important archaeological findings, but also the discovery of the first inhabitants of the Brazilian Northeast. The first archaeological findings of the Northeast were discovered by tourists from 10000 years ago when its first inhabitants were still living in caves.

## One of the most important archaeological sites in the world

Monte Circeo is a prehistoric site in the Lazio region of Italy, near the town of Ladispoli, about 100 km from Rome. It is one of the most important archaeological sites in Italy, and has been excavated since 1900. The site is a natural rock shelter, and has been used by humans since the Neolithic period.
